**Re: Confirmation of Application Number and Filing Receipt  
for PCT/AU2004/001026**

Dear Commissioner for Patents,

I would like to confirm that I have successfully entered into the USA National Phase for PCT application PCT/AU2004/001026.

I had previously contacted you to obtain the application number, which I have noted down as 10/529,297. However, I have misplaced the official documentation that was communicated to me.

I would greatly appreciate it if you could mail me another letter confirming the successful entry into the National Phase, complete with the application number, and receipt of fees paid.

Further details of my application and payment are as follows:

I had originally filed an application to proceed to National Phase for PCT/AU2004/001026 on the 20<sup>th</sup> March, 2005. (Note: this was filed before the PCT application was published; it is now published on 9 February 2006 with the International Publication Number WO 2006/012666 A1)

Fees of US\$2,105 had been paid via my American Express card on the 1<sup>st</sup> April, 2005. The description of that transaction "US PATENT TRADEMARK 800-8472772 VA".

Please do not hesitate to contact me if you require any other information,

Yours sincerely,

Louis Pan
